**MARYLAND MEDICAL ASSISTANCE PROGRAM**  
**MCO Transmittal No. 194**  
**December 11, 2023**

To: Managed Care Organizations

From: Laura Goodman, Acting Director   
Office of Innovation, Research and Development

Subject: MOM Case Management Services Code for Submitting Managed Care Encounters, Effective January 1, 2024

**Note: Please ensure the appropriate staff members in your organization are informed of the contents of this transmittal.**

---

Effective January 1, 2024, HealthChoice managed care organizations (MCOs) will submit encounters for the Maryland Department of Health's (MOM) program using **MC050** for MOM Case Management Services.

The code will be utilized on a per member, per month (PMPM) basis for individuals actively enrolled in MOM case management services. Starting January 1, 2024, rates will be \$208 PMPM for all MOM member month types (intake, ongoing and substantive outreach) per the guidance in the [MOM case management manual](#).

This code will supplement the current method of manually reporting MOM member months. MCOs are still required to submit monthly Care Delivery Partner and Outreach Attempt Log reports.

**Guidance:**

- MCOs will use their 9-digit Medicaid provider identification number with a '5' added to the beginning as the NPI for both billing provider and rendering provider (e.g., 5XXXXXXXXXX).

- MCOs may submit one encounter per month per actively enrolled MOM participant. MCOs may be required to void any additional encounters processed for a participant in a month.
- No specific diagnosis code will be required for the encounter. MCOs should apply pregnancy- or OUD-related diagnosis codes. Examples may include:
  - F11.20: Opioid Dependence, Uncomplicated
  - F11.10: Opioid Abuse, Uncomplicated
  - O26.90: Pregnancy Related Conditions, Unspecified, Unspecified Trimester
  - Z34.80: Encounter for Supervision of Other Normal Pregnancy, Unspecified Trimester
- MCOs should submit the encounter to MDH with a paid amount of \$208 using the existing process for priced encounters. MOM case management services are built into capitation on a risk corridor basis.
