

Maryland Rural Health Transformation Program

Rural Health Vendor Directory

Thank you for your interest in the Maryland Rural Health Transformation Program (RHTP) and its impact on the health of rural Marylanders! The Maryland State Office of Rural Health has received outreach from many entities interested in making their RHTP-relevant service offerings known within the state of Maryland.

As a result, this Rural Health Vendor Directory is made available to connect consultant, service, and technology vendors to stakeholders. The information serves as a networking resource, by which stakeholders can reach out to potential vendors based on their specific areas of work. Inclusion in the Vendor Directory does not constitute endorsement of these vendors nor their services by the Maryland Department of Health nor State Office of Rural Health. The directory is solely intended for networking and informational purposes.

The RHTP Vendor Directory is organized based on vendor type: Consultant/Agency, Technology/Software, Product Supplier, Service Provider, or Other.

Rural Health Vendor Directory

Vendor	Primary Contact & Email Address	Area(s) of Expertise	Service Description
Type of Vendor: Consultant/Agency
