

Domestic Violence	
SHIP website description	Domestic violence contributes greatly to the morbidity and mortality of Maryland citizens. Up to 40% of violent juvenile offenders witnessed domestic violence in the homes, and 63% of homeless women and children have been victims of intimate partner violence as adults.
Source	The Maryland Uniform Crime Reporting (UCR) Program
Numerator	Number of domestic violence crimes
Denominator	Number of persons (population) from Maryland MDH Vital Statistics Administration
Threshold	Not applicable
Censorship (if below threshold)	Not applicable
Race/ethnicity categories (on SHIP chart)	All races/ ethnicities (aggregated)
Other	In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported.
