Weekly Cold-related Illness Surveillance Report

March 29, 2017

Reporting for March 21, 2017 to March 27, 2017

National Weather Service Forecast: No current advisories
Wind Chill Advisories Declared During This Week: 0
Total Wind Chill Advisories Declared This Winter: 8

Wind Chill is only calculated for temperatures below 50°F and wind speeds above 3 mph

Note on Emergency Department Data: The results from the query used in ESSENCE, an electronic biosurveillance system, to track cold-related illnesses may be an overestimation of the actual burden of illness related to the cold weather. This overestimation is due to the nature of the query, which includes the term hypothermia and frostbite.

Note on EMS Data: These data are based on EMS pre-hospital care reports where the EMS provider has selected hypothermia as a primary or secondary impression of a patient's illness. This impression is solely based on the signs and symptoms seen by the provider, not on any diagnostic tests. Since these numbers do not include all primary or secondary impressions that may be seen with cold exposure, the actual numbers may be low. These data are reported for trending purposes only.

Emergency Department Chief Complaints Regarding Cold-related Illness

Emergency Department Chief Complaints Regarding Carbon Monoxide Exposure

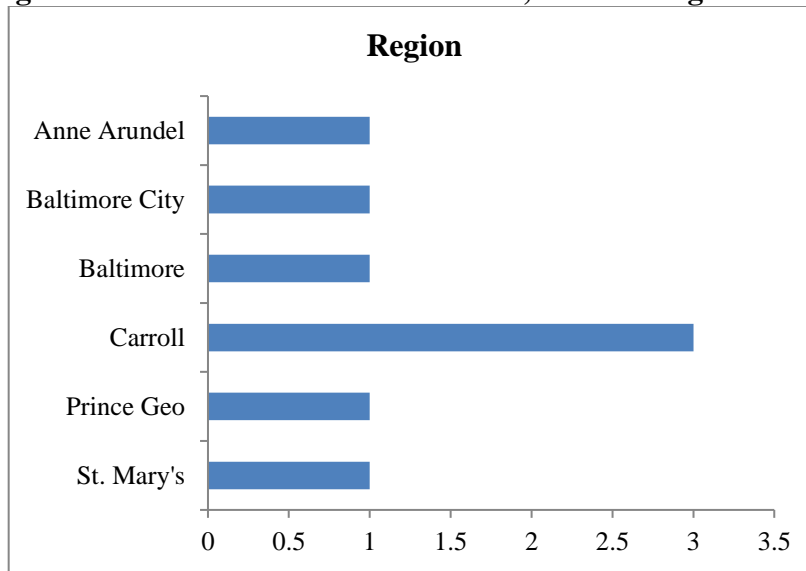

Date	Number of Chief Complaints Regarding Cold-related Illness	Number of Chief Complaints Regarding Carbon Monoxide Exposure
March 21	2	0
March 22	2	0
March 23	2	0
March 24	0	0
March 25	0	1
March 26	2	0
March 27	0	2

***Note: ESSENCE chief complaint query for cold-related illness contains the following terms: frostbite, frostnip, hypothermia, chilblain, and trench foot**

There were no chief complaint clusters identified this week.

Geographical and Age Group Distribution of Emergency Department Chief Complaints Regarding Cold-related Illnesses for March 21, 2017 through March 27, 2017

***Geographical distribution of emergency department chief complaints is based on patients' jurisdictions of residence; those jurisdictions not shown had no chief complaints attributed to their residents. The "Other Region" category includes patient records without a ZIP code and patients who reside outside of Maryland.**

Total Number of Cold-related Deaths	Jurisdiction*	Age Group	Gender
33	Garrett	18-44 Years Old	Female
	Baltimore County	18-44 Years Old	Male
	Baltimore City	18-44 Years Old	Male
	Prince George's	18-44 Years Old	Male
	Calvert	18-44 Years Old	Male
	Montgomery	45-64 Years Old	Male
	Garrett	45-64 Years Old	Female
	Prince George's	45-64 Years Old	Male
