

#	Date	Question	Response
1	3/4/20	Would the State be willing to accept a proposal for the implementation services only?	No, implementation services must be bid with the overall response.
2	3/11/20	What is the estimated cost of the Modern Electronic Health Records (EHR) System project?	The Department has not determined/estimated cost for this project at this time.
3	3/11/20	Has the Department allocated funding for the Modern Electronic Health Records (EHR) System yet? If so, through which source (budget, CIP, state/federal grant, etc.)?	This will not be a federally funded project. The contract resulting from this solicitation will be funded through the Department's general funds.
4	3/11/20	Who is the technical contact and/or project manager for the Modern Electronic Health Records (EHR) System effort, and what is their contact information?	Todd Heckman, todd.heckman@maryland.gov
5	3/11/20	Which operating platform does the Department currently use?	All information on the current environment is described in the RFP.
6	3/11/20	Which other systems will have to integrate/interface with the Modern Electronic Health Records (EHR) System, and will the Department provide incumbent vendors for each system?	This information is described in the RFP.
7	3/11/20	What is the number of users anticipated for the Modern Electronic Health Records (EHR) System?	This information is described in the RFP.
8	3/11/20	Have you had any external assistance preparing this RFP?	Yes, MDH hired a consultant to assist with requirements gathering and validation.
9	4/2/20	The question is around the proposal submission format for RFP Sections 2 and 3. Is it MDH's expectation that the vendor simply acknowledge these statements as they are informational OR is there an expectation of a narrative response? Two examples would be: 2.2.2 MDH Facilities: Vendor can simply acknowledge the information as there doesn't seem to be an expectation of a narrative. 2.2.4 Current Systems Challenges: Vendor could acknowledge the information but also provide a narrative as to how they would overcome these challenges.	Vendor should provide narrative and details as to how their solution would best meet/exceed the needs of the agency. They should base their response on the information provided in the RFP and state any specific assumptions made to arrive at their approach.
10	4/2/20	Will you be looking for an archival solution for the Legacy system and if there will be an RFP for that as well	There will not be a separate response for data extraction and archiving. It is part of this project.
11	4/1/20	Who is the current incumbent?	No incumbent. Current system is a custom legacy system.
12	4/1/20	What is the contract value?	There is no cost information to share.
13	4/1/20	Was a pre-proposal held?	Yes, April 1 st 2020
14	4/1/20	Will the sign in sheet be sent out with the Amendments?	Yes
15	4/1/20	Why is there no MBE Goal attached to this contract?	The software will be a cloud-based, Software as a Service (SaaS) solution and will be from a single Contractor. The complex nature of the proprietary software leaves no opportunity for sub-contracting cloud-based software service.
16	4/1/20	Given the current environment, will the Proposal due date be extended?	It has been extended to May 29, 2020. We do not anticipate any more extensions at this point.
17	4/1/20	Will this contract be awarded to only one awardee?	Yes, a single prime vendor.
