2 Contractor Requirements: Scope of Work

2.1 Summary Statement

- 2.1.1 The Maryland Department of Health (“MDH” or the “Department”) is issuing this Request for Proposals (“RFP”) in order to obtain a Contractor(s) who will provide a broad range of long-term acute care (“LTAC”) and brain injury (“BI”) services to patients (collectively the “Program”). Currently this Program is housed at Western Maryland Hospital Center (“WMHC”) and MDH is seeking to transition this Program out of WMHC into privately run facilities. This procurement may result in one or multiple Contractors who will be responsible for providing all administrative, management, and support services necessary to run the Program efficiently and effectively. WMHC’s patient population may include individuals who may be uninsured and/or undocumented. In some respects, the population at WMHC is not an equal comparison to a traditional long-term acute care hospital or a facility providing brain injury services. The Mission of MDH is “Promoting lifelong health and wellness for all Marylanders.” MDH is dedicated to serving Marylanders in need of long-term acute care and brain injury services. MDH seeks to achieve the highest level of care and by doing so, is seeking innovative ideas as to how to deliver services using skilled and compassionate clinicians, staff, and volunteers.
- 2.1.2 It is the State’s intention to obtain goods and services, as specified in this RFP, from a Contract between the selected Offeror and the State.
- 2.1.3 The MDH may award contracts to one or more Offerors as prime contractors who will each be responsible for the complete oversight and management of all the components of comprehensive care services as outlined in **RFP Section 2**. Prime contractors may engage in and manage subcontracts to ensure that the objectives of the contract are met. Prime contractors shall be solely responsible for the management and oversight of their subcontractors and ensuring Contract compliance. See **RFP Section 4.9 Award Basis** for more Contract award information.
- 2.1.4 An Offeror, either directly or through its subcontractor(s), must be able to provide all services and meet all of the requirements requested in this solicitation and the successful Offeror (the “Contractor”) shall remain responsible for Contract performance regardless of subcontractor participation in the work.
- 2.1.5 A Contract award does not ensure a Contractor will receive all or any State business under the Contract.

2.2 Background, Purpose and Goals

- 2.2.1 WMHC, located at 1500 Pennsylvania Avenue, Hagerstown, Maryland, was designed as an acute care hospital and opened in 1957. Since its opening more than 60 years ago, the facility has adapted to the region’s changing medical needs. WMHC specializes in various health care services including long-term acute care and brain injury services. The acute care hospital has long been used as a Long-Term Acute Care Hospital (“LTACH”) to provide chronic care for patients whose needs are not met in the community. Today, patient care continues to evolve and less demand for this facility has left a small part of the building in operation with large parts vacant. The region has seen an increase in the availability of LTACHs and the need for the State to provide long-term acute care has therefore decreased.
- 2.2.2 WMHC is budgeted for and operates one 19-bed combined LTAC and BI unit. The State is seeking to transition the 19-bed unit to community-based providers in the State of Maryland.

- 2.2.3 MDH’s goal is to gain operational and cost efficiencies, while maintaining responsibility for the State-operated LTAC and BI programs. The State will direct all admissions and will be the responsible party for all uninsured and/or undocumented patients.
- 2.2.4 The census of WMHC as of July 21, 2022 is six (6) long-term acute care and brain patients. This number may include both uninsured and undocumented patients. An undocumented patient is an individual who lacks proper authorization to be in the United States of America. MDH is “the provider of last resort” and accepts patients when no other provider is willing to admit the patient.
- 2.2.5 WMHC currently receives referrals from various types of providers. If a patient is admitted to the Program, the facility from which the patient comes is wholly responsible for coordinating the transfer of the patient to the Program, including providing transportation that is in line with the patient’s acuity level.

2.2.6 State Staff and Roles

In addition to the Procurement Officer and Contract Monitor, the State will provide a Program Administrator. The State may determine throughout the term of the Contract that additional positions are needed to oversee the Program.

- A. State Program Administrator, shall have the following roles, which may be modified and expanded over the term of the Contract.
- 1) Shall serve as the Contract Monitor.
 - 2) Shall serve as the State’s primary contact for the Contractor.
 - 3) Shall oversee all administrative, management, and support services necessary to run the Program efficiently and effectively and be wholly responsible for the continued operation of the Program.
 - 4) Shall provide guidance and work with contractor to ensure requirements listed in this RFP are met.
 - 5) Shall have the right to attend any meeting relating to the management and operations of the Program.

2.2.7 State Responsibilities

- A. The State will establish eligibility and admission requirements for patient placement in the Program.
- B. The State will place all patients based on the eligibility and admission requirements established by the State.
- C. The State’s Contract Monitor will monitor the performance of the Contractor to ensure Contract compliance, and maintain an active role in the operation of the Program to ensure a level of care for the patients at least equal to State and federal standards as well as any licensing and accreditation requirements.
- D. The State is responsible for providing required information, data, documentation, and test data to facilitate the Contractor’s performance of the work and will provide such additional assistance and services as is specifically set forth.

2.3 Responsibilities and Tasks

- 2.3.1.1 The Contractor and the proposed facility, shall manage and operate the Program and comply with all applicable federal, State, and local governing laws, regulations, standards ordinances, and codes, all licensing requirements to operate a long-term acute care hospital, and all other regulations of any other entity that has jurisdiction. - 2.3.1.8 Upon expiration, or termination of the Contract, Contractor shall ensure that all electronic data, reports and all other documents developed by the Contractor under this Contract are delivered to the State of Maryland at no additional cost to the State. Additionally, all of the above in paper form may be required at no additional cost to the State.
- 2.3.1.9 Final payment at the termination of the Contract period shall not be made by the State until Certification from the State Comptroller is received by MDH that all taxes have been paid, all required reports and data have been received by the State, and all other obligations to the State have been met. The State may also withhold final payment if the Contractor has failed to pay debts owed to its creditors, and until all debts have been paid.

The Contractor shall comply with all applicable federal, State, and local governing laws, regulations, standards, ordinances, and codes, and all licensing requirements regarding infection control.

2.3.10.1 Transition Plan Fee

Following the approval of the final Transition Plan, a Contractor may be required to incur costs in order to transition patients to its facility. The Department shall not reimburse any costs incurred prior to the approval of the final Transition Plan. These costs incurred during the transition period are not reimbursable under Medicaid. The Contractor shall propose a Transition Plan Fee as set forth in the Financial Proposal form included in the RFP as **Attachment B – Transition Plan Fee**.

The Transition Plan Fee ensures the State's investment in the Program and enables the Contractor to initiate its Transition Plan as outlined in **RFP Section 3.1**. The Contractor shall consider the following non-exhaustive list elements when developing its Transition Plan Fee: certificate of need and licensure, infrastructure modifications, and contract administration costs. Once beds are available at the Contractor's facility, the Transition Plan Fee will be reduced based upon the pro-rata basis of bed availability. Once all awarded beds are available, the Contractor is no longer permitted to charge the Transition Plan Fee or any portion thereof.

2.3.10.2 Onsite Cost of Care:

Insured Patients: The Contractor shall be responsible for the billing and collection for services rendered to all insured Program patients. For third-party payers, including but not limited to, Medicare, Medicaid, and private insurance, the Contractor is responsible for the billing and collection for services rendered. The Contractor is responsible for obtaining provider numbers, all cost reporting and third-party billing contracts. All beds shall be dually certified for Medicare and Medicaid. The Contractor assumes all collection risk for private pay billings. Any denial of payments by third-party payers will be at the expense of the Contractor.

For insured patients, the total cost of care is the responsibility of the patient and also the chargeable person as provided in Health-General Article, §16-102(b), Annotated Code of Maryland. The State shall not be responsible for the Cost of Care of any insured patient.

Uninsured Patients: As outlined in Health-General Article, §16-102(a), Annotated Code of Maryland, “It is the policy of this State to obligate each recipient of services and, to the extent provided in this title, those legally responsible for the recipient to pay, if financially able, for the cost of care that is received by the recipient of services.” Contractor shall determine whether a patient and/or chargeable person as provided in Health-General Article, §16-102(b), Annotated Code of Maryland has the ability to pay for the patient’s daily Cost of Care. If it is determined that a patient and/or chargeable person has the ability to pay for the patient’s daily Cost of Care, that amount multiplied by the number of days in the month shall be deducted from the total monthly Cost of Care and be billed directly to the patient and/or chargeable person. Any costs for services charged to the patient and/or chargeable person that are uncollectable shall remain the responsibility of the patient and/or chargeable person.

Contractor will invoice the State monthly for the onsite Cost of Care services rendered to uninsured patients at the current approved Medicaid rates. The monthly invoice will outline the total charges incurred and will provide an itemization for services rendered for each uninsured patient. If the patient and/or chargeable person is responsible for any costs, those costs shall be reflected on the invoice as a deduction from the monthly total Cost of Care with the balance being owed by the State. Within one (1) week of a patient’s admission to the Program, the Contractor will provide the Program Administrator with a monthly estimated cost of care.

2.3.10.3 **Program Administration Fee:** The Contract will set standards that require spending levels higher than what Medicare or Medicaid consider as reimbursable. These services are not reimbursable under Medicaid. These standards ensure the maintenance of the State’s investment in the Program, enable the Contractor to provide services that address the unique needs of the patients, and provide a higher standard of care than is found in most long-term acute care hospitals. To ensure that the Contractor can meet the higher level of service, the Contractor shall propose a Program Administration Fee as set forth in the Financial Proposal form included in the RFP as **Attachment B – Program Administration Fee**. The proposed Program Administration Fee is an amount that is above and beyond the daily Cost of Care for each patient.

2.3.10.4 **Bed Hold Fee:** The Contractor shall hold contracted beds regardless as to whether MDH admits patients.

2.3.10.4.1 **Leave of Absence:** If a patient is on an approved leave of absence from the facility, the Contractor shall hold a bed for that patient until the patient returns to the facility or the patient is discharged from the Program, whichever occurs first.

2.3.10.4.1.1 For all patients, the Contractor will be responsible for contacting the Program Administrator to receive confirmation that a patient's leave of absence is approved.

2.3.10.4.1.2 For insured patients, the Contractor shall be responsible for the billing and collection of any costs eligible for reimbursement through third-party payers.

2.3.10.4.1.3 For uninsured patients, the State will reimburse at the Medicaid leave of absence rate up to the permitted number of days that Medicaid would reimburse for a leave of absence.

2.3.10.4.1.4 For all patients, insured and uninsured, MDH will continue to pay the Program Administration Fee for each day a patient is on an approved leave of absence.

2.3.10.4.2 **Bed Vacancy:** If a bed is vacant due to no patient admission from the State, the Contractor shall hold that bed for future patient admissions. The State will reimburse the Contractor the Program Administration Fee for each day the bed remains vacant.

2.3.11 Financial Reporting

2.3.11.1 Contractor shall:

2.3.11.1.1 Submit an annual operating budget for the Program to the Program Administrator at least sixty (60) days prior to the start of each Contract year. The operating budget shall be consistent with the level of support committed in the Contractor's technical proposal.

2.3.11.1.2 Have an independent audit performed within ninety (90) days after the end of each Contract year for the operation of the Program, conducted by a Certified Public Accountant ("CPA") firm approved by the Program Administrator. The audit report will be restricted to the expenses and revenues associated only with the operation of the Program. The Cost shall be borne by the Contractor. All records necessary for the audit shall be maintained on-site. The Program Administrator shall receive the audit report from the CPA firm. Contractor shall also provide the Program Administrator with any other requested financial reports at least thirty (30) calendar days prior to the annual/anniversary date of the Contract for the duration of the Contract.

2.3.11.1.2.1 The annual independent audit shall include an audit of the patient banking service.

2.3.12 Current MDH Staffing Proposal

2.3.12.1 MDH is requesting that an Offeror present an employment proposal for any current WMHC employees that wish to transition with the Program. If an Offeror is willing to employ WMHC employees that wish to transition with the Program, the Offeror will be ranked higher in the technical evaluation. The elements of the employment proposal will

Critical functions are identified as all aspects and functionality of the Solution including any add-on modules and shall address all areas relating to Information Technology security and operational processes. These services provided by the Contractor that shall be covered by the audit will collectively be referred to as the "Information Functions and Processes." Such audits shall be performed in accordance with audit guidance: Reporting on an Examination of Controls at a Service Organization Relevant to Security, Availability, Processing Integrity, Confidentiality, or Privacy (SOC 2) as published by the American Institute of Certified Public Accountants (AICPA) and as updated from time to time, or according to the most current audit guidance promulgated by the AICPA or similarly-recognized professional organization, as agreed to by the State, to assess the security of outsourced client functions or data (collectively, the "Guidance") as follows:
- A. The type of audit to be performed in accordance with the Guidance is a SOC 2 Type 2 Audit (referred to as the "SOC 2 Audit" or "SOC 2 Report"). All SOC2 Audit Reports shall be submitted to the Contract Monitor as specified in Section F below. The initial SOC 2 Audit shall be completed within a timeframe to be specified by the State. - C. The audit scope of each year's SOC 2 Report may need to be adjusted (including the inclusion or omission of the relevant trust services criteria of Security, Availability, Processing Integrity, Confidentiality, and Privacy) to accommodate any changes to the environment since the last SOC 2 Report. Such changes may include but are not limited to the addition of Information Functions and Processes through modifications to the Contract or due to changes in Information Technology or the operational infrastructure. The Contractor shall ensure that the audit scope of each year's SOC 2 Report engagement shall accommodate these changes by including in the SOC 2 Report all appropriate controls related to the current environment supporting the Information Functions and/or Processes, including those controls required by the Contract.
- D. The scope of the SOC 2 Report shall include work performed by any subcontractors that provide essential support to the TO Contractor or essential support to the Information Functions and Processes provided to the State under the Contract. The Contractor shall ensure the audit includes all such subcontractors operating in performance of the Contract.
- E. All SOC 2 Audits, including those of the Contractor, shall be performed at no additional expense to the State.

The corrective action plan shall identify in detail the remedial action to be taken by the Contractor along with the date(s) when each remedial action is to be implemented.
- G. If the Contractor currently has an annual, independent information security assessment performed that includes the operations, systems, and repositories of the Information Functions and Processes being provided to the State under the Contract, and if that assessment generally conforms to the content and objective of the Guidance, the State will determine in consultation with appropriate State government technology and audit authorities whether the Contractor's current information security assessments are acceptable in lieu of the SOC 2 Report(s).
- H. If the Contractor fails during the Contract term to obtain an annual SOC 2 Report by the date specified in **Section 3.9.2.A**, the State shall have the right to retain an independent audit firm to perform an audit engagement of a SOC 2 Report of the Information Functions and Processes utilized or provided by the Contractor and under the Contract. The Contractor agrees to allow the independent audit firm to access its facility/ies for purposes of conducting this audit engagement(s) and will provide the necessary support and cooperation to the independent audit firm that is required to perform the audit engagement of the SOC 2 Report. The State will invoice the Contractor for the expense of the SOC 2 Report(s) or deduct the cost from future payments to the Contractor.

- I. Provisions in **Section 3.9.1-2** shall survive expiration or termination of the Contract. Additionally, the Contractor shall flow down the provisions of **Section 3.9.1-2** (or the substance thereof) in all subcontracts.

 - b) However, if this person is available to return to work and fully perform all job duties before a replacement has been authorized by the Contract Monitor the Contract Monitor may, at his/her sole discretion, authorize the original personnel to continue to work under the Contract, or authorize the replacement personnel to replace the original personnel, notwithstanding the original personnel's ability to return.

3.11.5 Substitution Prior to and Within 30 Days After Contract Execution

Prior to Contract execution or within thirty (30) days after Contract execution, the Offeror may not substitute proposed Key Personnel as set forth in the Contractor's Proposal, except under the following circumstances (a) for actual full-time personnel employed directly by the Offeror: the vacancy occurs due to the sudden termination, resignation, or approved leave of absence due to an Extraordinary Personal Event, or the death of such personnel; and (b) for any temporary staff, subcontractors or 1099 contractors: the vacancy occurs due to an Incapacitating event or the death of such personnel. To qualify for such substitution, the Offeror must demonstrate to the State's satisfaction the event necessitating substitution. - 4.12.1 If the RFP is revised before the due date for Proposals, the MDH shall post any addenda to the RFP on eMMA and shall endeavor to provide such addenda to all prospective Offerors that were sent this RFP or are otherwise known by the Procurement Officer to have obtained this RFP. It remains the responsibility of all prospective Offerors to check eMMA for any addenda issued prior to the submission of Proposals.
- 4.12.2 Acknowledgment of the receipt of all addenda to this RFP issued before the Proposal due date shall be included in the Transmittal Letter accompanying the Offeror's Technical Proposal.
- 4.12.3 Addenda made after the due date for Proposals will be sent only to those Offerors that remain under award consideration as of the issuance date of the addenda.
- 4.12.4 Acknowledgement of the receipt of addenda to the RFP issued after the Proposal due date shall be in the manner specified in the addendum notice.
- 4.12.5 Failure to acknowledge receipt of an addendum does not relieve the Offeror from complying with the terms, additions, deletions, or corrections set forth in the addendum, and may cause the Proposal to be deemed not reasonably susceptible of being selected for award.

4.13 Cancellations

- 4.13.1 The State reserves the right to cancel this RFP, accept or reject any and all Proposals, in whole or in part, received in response to this RFP, waive or permit the cure of minor irregularities, and conduct discussions with all qualified or potentially qualified Offerors in any manner necessary to serve the best interests of the State.
- 4.13.2 The State reserves the right, in its sole discretion, to award a Contract based upon the written Proposals received without discussions or negotiations.
- 4.13.3 In the event a government entity proposes and receives the recommendation for award, the procurement may be cancelled, and the award processed in accordance with COMAR 21.01.03.01.A(4).
- 4.13.4 If the services that are the subject of the RFP are currently being provided under an interagency agreement with a public institution of higher education and the State determines that the services can be provided more cost effectively by the public institution of higher education, then the RFP may be cancelled in accordance with Md. Code Ann., State Finance and Procurement Art., § 3-207(b)(2).

4.14 Incurred Expenses

The State will not be responsible for any costs incurred by any Offeror in preparing and submitting a Proposal, in making an oral presentation, providing a demonstration, or performing any other activities related to submitting a Proposal in response to this solicitation.

If applicable, the Offeror's Proposal shall contain an explicit statement, signed by an authorized representative of the parent organization, stating that the parent organization will guarantee the performance of the subsidiary.
- 4.16.4 A parental guarantee of the performance of the Offeror under this Section will not automatically result in crediting the Offeror with the experience or qualifications of the parent under any evaluation criteria pertaining to the actual Offeror's experience and qualifications. Instead, the Offeror will be evaluated on the extent to which the State determines that the experience and qualifications of the parent are applicable to and shared with the Offeror, any stated intent by the parent to be directly involved in the performance of the Contract, and the value of the parent's participation as determined by the State.

4.17 Acceptance of Terms and Conditions

By submitting a Proposal in response to this RFP, the Offeror, if selected for award, shall be deemed to have accepted the terms and conditions of this RFP and the Contract, attached hereto as **Attachment M**. Before a business entity can do business in the State, it must be registered with the State Department of Assessments and Taxation (SDAT). SDAT is located at State Office Building, Room 803, 301 West Preston Street, Baltimore, Maryland 21201. For registration information, visit <https://www.egov.maryland.gov/businessexpress>

It is strongly recommended that any potential Offeror complete registration prior to the Proposal due date and time. The Offeror’s failure to complete registration with SDAT may disqualify an otherwise successful Offeror from final consideration and recommendation for Contract award.

Offerors are advised that Md. Code Ann., State Finance and Procurement Article, § 11-205.1 provides as follows:

4.22.1 In connection with a procurement contract a person may not willfully:

Maryland Code Ann., State Finance and Procurement Article, § 18-101 et al. The Commissioner of Labor and Industry at the Maryland Department of Labor requires that a contractor subject to the Living Wage law submit payroll records for covered employees and a signed statement indicating that it

paid a living wage to covered employees; or receive a waiver from Living Wage reporting requirements. See COMAR 21.11.10.05.

- B. If subject to the Living Wage law, Contractor agrees that it will abide by all Living Wage law requirements, including but not limited to reporting requirements in COMAR 21.11.10.05. Contractor understands that failure of Contractor to provide such documents is a material breach of the terms and conditions and may result in Contract termination, disqualification by the State from participating in State contracts, and other sanctions. Information pertaining to reporting obligations may be found by going to the Maryland Department of Labor website <http://www.dllr.state.md.us/labor/prev/livingwage.shtml>.
- C. Additional information regarding the State's living wage requirement is contained in **Attachment F**. The specific living wage rate is determined by whether a majority of services take place in a Tier 1 Area or a Tier 2 Area of the State. The specific Living Wage rate is determined by whether a majority of services take place in a Tier 1 Area or Tier 2 Area of the State.
 - 1) The Tier 1 Area includes Montgomery, Prince George's, Howard, Anne Arundel and Baltimore Counties, and Baltimore City. The Tier 2 Area includes any county in the State not included in the Tier 1 Area. In the event that the employees who perform the services are not located in the State, the head of the unit responsible for a State Contract pursuant to §18-102(d) of the State Finance and Procurement Article shall assign the tier based upon where the recipients of the services are located. If the Contractor provides more than 50% of the services from an out-of-State location, the State agency determines the wage tier based on where the majority of the service recipients are located. In this circumstance, the Contract will be determined to be a Tier (enter "1" or "2," depending on where the majority of the service recipients are located) Contract.
 - 2) The Contract will be determined to be a Tier 1 Contract or a Tier 2 Contract depending on the location(s) from which the Contractor provides 50% or more of the services. The Offeror must identify in its Proposal the location(s) from which services will be provided, including the location(s) from which 50% or more of the Contract services will be provided.

 - 4) If the Contractor provides 50% or more of the services from a location(s) in a Tier 2 jurisdiction(s), the Contract will be a Tier 2 Contract.
- E. If the Contractor provides more than 50% of the services from an out-of-State location, the State agency determines the wage tier based on where the majority of the service recipients are located. See COMAR 21.11.10.07.
- F. The Offeror shall identify in the Proposal the location from which services will be provided.
- G. **NOTE:** Whereas the Living Wage may change annually, the Contract price will not change because of a Living Wage change or a change in the State minimum wage.

 - d) Subcontract dollars committed to Maryland small businesses and MBEs; and
 - e) Other benefits to the Maryland economy which the Offeror promises will result from awarding the Contract to the Offeror, including contractual commitments. Describe the benefit, its value to the Maryland economy, and how it will result from, or because of the Contract award. This includes physical copies of all agreements referenced and incorporated in primary documents, including but not limited to any software licensing agreement for any software proposed to be licensed to the State under this Contract (e.g., EULA, Enterprise License Agreements, Professional Service agreement, Master Agreement) and any AUP. The State does not agree to terms and conditions not provided in an Offeror's Technical Proposal and no action of the State, including but not limited to the use of any such software, shall be deemed to constitute acceptance of any such terms and conditions. Failure to comply with this section renders any such agreement unenforceable against the State.
- 3) For each service, hardware or software proposed as furnished by a third-party entity, Offeror must identify the third-party provider and provide a letter of authorization or such other documentation demonstrating the authorization for such services. In the case of an open-source license, authorization for the open source shall demonstrate compliance with the open-source license.

5.4 Volume II – Financial Proposal

The Financial Proposal shall contain all price information in the format specified in **Attachment B**. The Offeror shall complete the Financial Proposal Form only as provided in the Financial Proposal Instructions and the Financial Proposal Form itself. Do not amend, alter, or leave blank any items on the Financial Proposal Form or include additional clarifying or contingent language on or attached to the Financial Proposal Form. Failure to adhere to any of these instructions may result in the Proposal being determined to be not reasonably susceptible of being selected for award and rejected by the MDH.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

6 Evaluation and Selection Process

6.1 Evaluation Committee

Evaluation of Proposals will be performed in accordance with COMAR 21.05.03 by a committee established for that purpose and based on the evaluation criteria set forth below. The Evaluation Committee will review Proposals, participate in Offeror oral presentations, site visits, and discussions, and provide input to the Procurement Officer. The MDH reserves the right to utilize the services of individuals outside of the established Evaluation Committee for advice and assistance, as deemed appropriate.

During the evaluation process, the Procurement Officer may determine at any time that a particular Offeror is not susceptible for award.

6.2 Technical Proposal Evaluation Criteria

The criteria to be used to evaluate each Technical Proposal are listed below in descending order of importance. Unless stated otherwise, any sub-criteria within each criterion have equal weight.

6.2.1 Offeror's Technical Response to Requirements and Work Plan (See RFP § 5.3.2.F)

The State prefers the Offeror's Technical Proposal to illustrate a comprehensive understanding of work requirements and mastery of the subject matter, including an explanation of how the work will be performed. Proposals which include limited responses to work requirements such as "concur" or "will comply" will receive a lower ranking than those Proposals that demonstrate an understanding of the work requirements and include plans to meet or exceed them.

6.2.2 Experience and Qualifications of Proposed Staff (See RFP § 5.3.2.G)

6.2.3 Offeror Qualifications and Capabilities, including proposed subcontractors (See RFP § 5.3.2.H)

6.2.4 Economic Benefit to State of Maryland (See RFP § 5.3.2.O)

6.3 Financial Proposal Evaluation Criteria

All Qualified Offerors (see **Section 6.5.2.D**) will be ranked from the lowest (most advantageous) to the highest (least advantageous) price based on the Total Proposal Price within the stated guidelines set forth in this RFP and as submitted on **Attachment B** - Financial Proposal Form.

6.4 Reciprocal Preference

6.4.1 Although Maryland law does not authorize procuring agencies to favor resident Offerors in awarding procurement contracts, many other states do grant their resident businesses preferences over Maryland contractors. COMAR 21.05.01.04 permits procuring agencies to apply a reciprocal preference under the following conditions:

- A. The Maryland resident business is a responsible Offeror;
- B. The most advantageous Proposal is from a responsible Offeror whose principal office, or principal base of operations is in another state;
- C. The other state gives a preference to its resident businesses through law, policy, or practice; and
- D. The preference does not conflict with a federal law or grant affecting the procurement Contract.

- 6.4.2 The preference given shall be identical to the preference that the other state, through law, policy, or practice gives to its resident businesses.

6.5 Selection Procedures

6.5.1 General

- A. The Contract will be awarded in accordance with the Competitive Sealed Proposals (CSP) method found at COMAR 21.05.03. The CSP method allows for the conducting of discussions and the revision of Proposals during these discussions. Therefore, the State may conduct discussions with all Offerors that have submitted Proposals that are determined to be reasonably susceptible of being selected for contract award or potentially so. However, the State reserves the right to make an award without holding discussions.
- B. With or without discussions, the State may determine the Offeror to be not responsible or the Offeror's Proposal to be not reasonably susceptible of being selected for award at any time after the initial closing date for receipt of Proposals and prior to Contract award.

6.5.2 Selection Process Sequence

- A. A determination is made that the MDOT Certified MBE Utilization and Fair Solicitation Affidavit (**Attachment D-1A**) is included and is properly completed, if there is a MBE goal. In addition, a determination is made that the VSBE Utilization Affidavit and subcontractor Participation Schedule (**Attachment E-1**) is included and is properly completed, if there is a VSBE goal.
- B. Technical Proposals are evaluated for technical merit and ranked. During this review, oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the State's requirements and the Offeror's ability to perform the services, as well as to facilitate arrival at a Contract that is most advantageous to the State. Offerors will be contacted by the State as soon as any discussions are scheduled.
- C. Offerors must confirm in writing any substantive oral clarifications of, or changes in, their Technical Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror's Technical Proposal. Technical Proposals are given a final review and ranked.
- D. The Financial Proposal of each Qualified Offeror (a responsible Offeror determined to have submitted an acceptable Proposal) will be evaluated and ranked separately from the Technical evaluation. After a review of the Financial Proposals of Qualified Offerors, the Evaluation Committee or Procurement Officer may again conduct discussions to further evaluate the Offeror's entire Proposal.
- E. When in the best interest of the State, the Procurement Officer may permit Qualified Offerors to revise their initial Proposals and submit, in writing, Best and Final Offers (BAFOs). The State may make an award without issuing a request for a BAFO. **Offerors may only perform limited substitutions of proposed personnel as allowed in Section 3.11 (Substitution of Personnel).**

6.5.3 Award Determination

Upon completion of the Technical Proposal and Financial Proposal evaluations and rankings, each Offeror will receive an overall ranking. The Procurement Officer will recommend award of the Contract to the

responsible Offeror that submitted the Proposal determined to be the most advantageous to the State. In making this most advantageous Proposal determination, technical factors will receive greater weight than financial factors.

6.6 Documents Required upon Notice of Recommendation for Contract Award

Upon receipt of a Notification of Recommendation for Contract award, the apparent awardee shall complete and furnish the documents and attestations as directed in Table 1 of **Section 7 – RFP Attachments and Appendices**.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

Attachment B. Financial Proposal Instructions & Form

B-1 Financial Proposal Instructions

In order to assist Offerors in the preparation of their Financial Proposal and to comply with the requirements of this solicitation, the Financial Proposal Instructions and a Financial Proposal Form have been prepared. Offerors shall submit their Financial Proposal on the Financial Proposal Form in accordance with the instructions on the Financial Proposal Form and as specified herein. Do not alter the Financial Proposal Form or the Proposal may be determined to be not reasonably susceptible of being selected for award. The Financial Proposal Form is to be signed and dated, where requested, by an individual who is authorized to bind the Offeror to the prices entered on the Financial Proposal Form.

The Financial Proposal Form is used to calculate the Offeror's TOTAL Proposal PRICE. Follow these instructions carefully when completing your Financial Proposal Form:

- A) All Unit and Extended Prices must be clearly entered in dollars and cents, e.g., \$24.15. Percentages where applicable shall be clearly expressed to the hundredths place, e.g., 10.15%. Make your decimal points clear and distinct.
- B) All Unit Prices must be the actual price per unit the State will pay for the specific item or service identified in this RFP and may not be contingent on any other factor or condition in any manner.
- C) All calculations shall be rounded to the nearest cent/hundredth, e.g., .344 shall be .34 and .345 shall be .35.
- D) Any goods or services required through this RFP and proposed by the vendor at **No Cost to the State** must be clearly entered in the Unit Price, if appropriate, and Extended Price with **\$0.00**.
- E) Every blank in every Financial Proposal Form shall be filled in. Any changes or corrections made to the Financial Proposal Form by the Offeror prior to submission shall be initialed and dated.
- F) Except as instructed on the Financial Proposal Form, nothing shall be entered on or attached to the Financial Proposal Form that alters or proposes conditions or contingencies on the prices. Alterations and/or conditions may render the Proposal not reasonably susceptible of being selected for award.
- G) It is imperative that the prices included on the Financial Proposal Form have been entered correctly and calculated accurately by the Offeror and that the respective total prices agree with the entries on the Financial Proposal Form. Any incorrect entries or inaccurate calculations by the Offeror will be treated as provided in COMAR 21.05.03.03.F and may cause the Proposal to be rejected.
- H) If option years are included, Offerors must submit pricing for each option year. Any option to renew will be exercised at the sole discretion of the State and comply with all terms and conditions in force at the time the option is exercised. If exercised, the option period shall be for a period identified in the RFP at the prices entered in the Financial Proposal Form.
- I) All Financial Proposal prices entered below are to be fully loaded prices that include all costs/expenses associated with the provision of services as required by the RFP. The Financial Proposal price shall include, but is not limited to, all: labor, profit/overhead, general operating, administrative, and all other expenses and costs necessary to perform the work set forth in the solicitation. No other amounts will be paid to the Contractor. If labor rates are requested, those amounts shall be fully loaded rates; no overtime amounts will be paid.
- J) Unless indicated elsewhere in the RFP, sample amounts used for calculations on the Financial Proposal Form are typically estimates for evaluation purposes only. Unless stated otherwise in the RFP, the MDH does not guarantee a minimum or maximum number of units or usage in the performance of the Contract.

K) Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.

B-1 Financial Proposal Form

The Financial Proposal Form shall contain all price information in the format specified on these pages. Complete the Financial Proposal Form only as provided in the Financial Proposal Instructions. Do not amend, alter or leave blank any items on the Financial Proposal Form. If option years are included, Offerors must submit pricing for each option year. Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.

- 19.2 Time extensions will be granted only for excusable delays that arise from unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, acts of the public enemy, acts of the State in either its sovereign or contractual capacity, acts of another Contractor in the performance of a contract with the State, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, or delays of subcontractors or

28. Subcontracting; Assignment

The Contractor may not subcontract any of its obligations under this Contract without obtaining the prior written approval of the Procurement Officer, nor may the Contractor assign this Contract or any of its rights or obligations hereunder, without the prior written approval of the Procurement Officer, each at the State's sole and absolute discretion; provided, however, that a Contractor may assign monies receivable under a contract after written notice to the State. Any subcontracts shall include such language as may be required in various clauses contained within this Contract, exhibits, and attachments. The Contract shall not be assigned until all approvals, documents, and affidavits

are completed and properly registered. The State shall not be responsible for fulfillment of the Contractor's obligations to its subcontractors.

 - (c) For all other claims, damages, loss, costs, expenses, suits or actions in any way related to this Contract and regardless of the basis on which the claim is made, Contractor's liability shall be unlimited.
 - (d) In no event shall the existence of a subcontract operate to release or reduce the liability of Contractor hereunder. For purposes of this Contract, Contractor agrees that all subcontractors shall be held to be agents of Contractor.
- 29.2 Contractor's indemnification obligations for Third party claims arising under **Section 10** ("Indemnification") of this Contract are included in this limitation of liability only if the State is immune from liability. Contractor's indemnification liability for third party claims arising under **Section 10** of this Contract shall be unlimited if the State is not immune from liability for claims arising under **Section 10**.
- 29.3. In no event shall the existence of a subcontract operate to release or reduce the liability of Contractor hereunder. For purposes of this Contract, Contractor agrees that it is responsible for performance of the services and compliance with the relevant obligations hereunder by its subcontractors.

30. Commercial Nondiscrimination

- 30.1 As a condition of entering into this Contract, Contractor represents and warrants that it will comply with the State's Commercial Nondiscrimination Policy, as described under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland. As part of such compliance, Contractor may not discriminate on the basis of race, color, religion, ancestry, national origin, sex, age, marital status, sexual orientation, sexual identity, genetic information or an individual's refusal to submit to a genetic test or make available the results of a genetic test or on the basis of disability, or otherwise unlawful forms of discrimination in the solicitation, selection, hiring, or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall Contractor retaliate against any person for reporting instances of such discrimination. Contractor shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that this clause does not prohibit or limit lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the marketplace. Contractor understands that a material violation of this clause shall be considered a material breach of this Contract and may result in termination of this Contract, disqualification of Contractor from participating in State contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party.
- 30.3 As a condition of entering into this Contract, upon the request of the Commission on Civil Rights, and only after the filing of a complaint against Contractor under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland, as amended from time to time, Contractor agrees to provide within 60 days after the request a complete list of the names of all subcontractors,

vendors, and suppliers that Contractor has used in the past four (4) years on any of its contracts that were undertaken within the State of Maryland, including the total dollar amount paid by Contractor on each subcontract or supply contract. Contractor further agrees to cooperate in any investigation conducted by the State pursuant to the State Commercial Nondiscrimination Policy as set forth under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland, and to provide any documents relevant to any investigation that are requested by the State. Contractor understands that violation of this clause is a material breach of this Contract and may result in Contract termination, disqualification by the State from participating in State contracts, and other sanctions.

- 30.4 The Contractor shall include the language from **Section 30.1**, or similar clause approved in writing by the MDH, in all subcontracts.

- 31.3 An act, failure to act, or decision of a Procurement Officer or a representative of the MDH concerning a withheld payment between the Contractor and a subcontractor under this **Section 31**, may not:

- (b) Be used as evidence on the merits of a dispute between the MDH and the Contractor in any other proceeding; or
- (c) Result in liability against or prejudice the rights of the MDH.

- 31.4 The remedies enumerated above are in addition to those provided under COMAR 21.11.03.13 with respect to subcontractors that have contracted pursuant to the MBE program.

- 31.5 To ensure compliance with certified MBE subcontract participation goals, the MDH may, consistent with COMAR 21.11.03.13, take the following measures:

- (a) Verify that the certified MBEs listed in the MBE participation schedule actually are performing work and receiving compensation as set forth in the MBE participation schedule. This verification may include, as appropriate:
 - i. Inspecting any relevant records of the Contractor

- ii. Inspecting the jobsite; and
- iii. Interviewing subcontractors and workers.

Verification shall include a review of:

- i. The Contractor's monthly report listing unpaid invoices over thirty (30) days old from certified MBE subcontractors and the reason for nonpayment; and
 - ii. The monthly report of each certified MBE subcontractor, which lists payments received from the Contractor in the preceding thirty (30) days and invoices for which the subcontractor has not been paid.
- (b) If the MDH determines that the Contractor is not in compliance with certified MBE participation goals, then the MDH will notify the Contractor in writing of its findings and will require the Contractor to take appropriate corrective action. Corrective action may include, but is not limited to, requiring the Contractor to compensate the MBE for work performed as set forth in the MBE participation schedule.
- (c) If the MDH determines that the Contractor is in material noncompliance with MBE Contract provisions and refuses or fails to take the corrective action that the MDH requires, then the MDH may:
- i. Terminate the Contract
 - ii. Refer the matter to the Office of the Attorney General for appropriate action; or
 - iii. Initiate any other specific remedy identified by the Contract, including the contractual remedies required by any applicable laws, regulations, and directives regarding the payment of undisputed amounts.
- (d) Upon completion of the Contract, but before final payment or release of retainage or both, the Contractor shall submit a final report, in affidavit form under the penalty of perjury, of all payments made to, or withheld from, MBE subcontractors.

32. Living Wage

If a Contractor subject to the Living Wage law fails to submit all records required under COMAR 21.11.10.05 to the Commissioner of Labor and Industry at the Department of Labor, Licensing and Regulation, the MDH may withhold payment of any invoice or retainage. The MDH may require certification from the Commissioner on a quarterly basis that such records were properly submitted.

The State has the right to exercise all rights and elections under the Code and all other applicable bankruptcy, insolvency, and similar laws with respect to this Contract (including all executory statement of works). Without limiting the generality of the foregoing, if the Contractor or its estate becomes subject to any bankruptcy or similar proceeding: (a) subject to the State’s rights of election, all rights and licenses granted to the State under this Contract shall continue subject to the respective terms and conditions of this Contract; and (b) the State shall be entitled to a complete duplicate of (or complete access to, as appropriate) all such intellectual property and embodiments of intellectual property, and the same, if not already in the State’s possession, shall be promptly delivered to the State, unless the Contractor elects to and does in fact continue to perform all of its obligations under this Contract.

The State reserves the right to assess fees for non-performance or failure to meet the terms and conditions of this Contract.

Communication. Communication between the Contractor and the State is an important element within this Contract. A direct line of communication between the Program Administrator and the Contractor's Administrator, and other Key Personnel are vital. Timely communication is important. Written documentation must be submitted to the Program Administrator within 24 hours. If the Contractor does not immediately notify the Program Administrator within four (4) hours of knowledge of each critical incident, it may result in the assessment of a \$500 fee per violation. Non-submission of written documentation within twenty-four (24) hours may result in the assessment of a \$500 fee per violation.

Complaint Resolution

All complaints received by the Program Administrator will be immediately forwarded to the Contractor. The Contractor shall generate a complaint resolution within three (3) Business Days. If the Contractor does not generate a complaint resolution within three (3) Business Days, on the 4th day it may result in the assessment of a \$1,000 fee per complaint.
