Maryland pools and spas regulated by the Department of Health and Mental Hygiene are required to comply with disability access laws (COMAR 10.17.01.37). The U.S. Department of Justice (USDOJ) published revised regulations for Titles II and III of the Americans with Disabilities Act of 1990 ("ADA") in the Federal Register on September 15, 2010. These regulations adopted revised, enforceable accessibility standards called the 2010 ADA Standards for Accessible Design ("2010 Standards" or "Standards"), which are available online at http://www.ada.gov/2010ADAstandards_index.htm. The 2010 Standards set minimum requirements – both scoping and technical – for State and local government facilities, public accommodations, and commercial facilities to be readily accessible to and usable by individuals with disabilities. To determine if your facility is required to meet the 2010 ADA Standards, please see the information and guidance on the ADA website, for example, http://www.ada.gov/pools_2010.htm, contact the USDOJ for assistance at 1-800-514-0301, or consult with your attorney. For pools, wading pools, and spas built before March 15, 2012, the 2010 ADA Standards go into effect on January 31, 2013.

Check one of the following regarding compliance with the 2010 ADA Standards: The pools and/or spas located at this facility are required to meet the 2010 ADA Standards and fully comply with these Standards. The pools and/or spas located at this facility are required to meet the 2010 ADA Standards but compliance is "not readily achievable" at this time (see, for example, http://www.ada.gov/regs2010/smallbusiness/smallbusprimer2010.htm#readilyachievable). The pools and/or spas located at this facility are not required to meet the 2010 ADA Standards but do not meet the Standards.				
Owner's Statement: I have carefully examined and read this form and understand that providing false information may result in denial, suspension or revocation of an operating permit.
