**Re: Lead-in-Water Results
RICA- Baltimore
605 S Chapel Gate Lane
Baltimore, MD 21229-3906**

Dear Customer:

Enclosed are the results of the lead samples taken from the above jobsite. Corrective action is recommended whenever any reading is 15 ug/L (parts per billion) and above. Report #234750 indicates sample test results are below the EPA allowable limit of 15 ug/L (parts per billion), and do not require any corrective action.

If you have any questions, please do not hesitate to call me.

Sincerely,

A handwritten signature in black ink, enclosed within a hand-drawn oval. The signature appears to be "John Grimes".

John (J. P.) Grimes
Senior Sales Executive
