

ALLEGANY COUNTY, MARYLAND

CORONAVIRUS

JOINT INFORMATION CENTER

DATA BRIEF: ALLEGANY COUNTY COVID-19 FATALITIES

December 8, 2020

DATA SUMMARY:

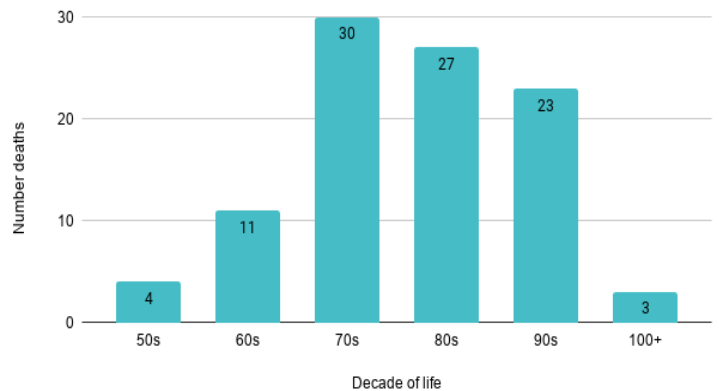

Allegheny County has seen a sharp increase in the rate of infection and number of fatalities from COVID-19 since October 2020. At this time, Allegheny County has the highest positivity rate in the state, with widespread sustained community transmission.

As of December 7, Allegheny County's positivity rate was 17.44% versus the state average of 7.61%. The seven-day average case rate for Allegheny was 189.28 per 100,000 population, while the state's average was 44.8 cases per 100,000 population.

Allegheny County's cumulative case count now stands at 4,204 with 98 fatalities attributed to COVID-19. As illustrated by the charts on the right, the highest rate of fatalities has been in individuals in their 70s, 80s, and 90s. More than half of all Allegheny County deaths from COVID-19 — 58 county residents — occurred in November alone, and 15 additional deaths were reported in the first week of December. Race and ethnicity of COVID of the deceased is consistent with the breakdown of race and ethnicity of the county population.
