# **Circumstances of Suicide Deaths in Maryland**

### 2003-2017 Maryland Violent Death Reporting System

Revised as of April 20, 2020\*

\*Five deaths for non-residents fatally injured outside of Maryland are excluded. In addition, circumstance percentages have changed due to corrections to the denominator used for calculation.

<u>Please note</u>: The Maryland Vital Statistics Administration provides official death counts and rates for the State of Maryland. They can be viewed online at https://health.maryland.gov/vsa/Pages/reports.aspx. The Maryland Violent Death Reporting System is designed to supplement vital statistics data by providing information about the circumstances of violent death. Please refer to the Vital Statistics Administration for case counts and rates.

#### Cases included in this report:

- Single-suicides of Maryland residents injured in Maryland
- Multiple-suicides of Maryland residents injured in Maryland
- Homicide followed by a single-suicide of Maryland residents injured in Maryland
- Single-suicides of out-of-state residents injured in Maryland

Cases excluded from this report:

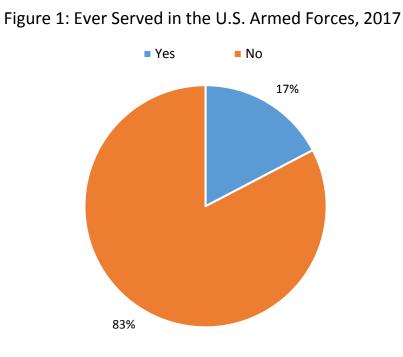

• Suicide deaths of out-of-state residents that were injured out-of-state and died in Maryland
