

Circumstances of Suicide Deaths in Maryland

2003-2018 Maryland Violent Death Reporting System

Created on 03/31/2021

Please note: The Maryland Vital Statistics Administration provides official death counts and rates for the State of Maryland. They can be viewed online at <https://health.maryland.gov/vsa/Pages/reports.aspx>. The Maryland Violent Death Reporting System is designed to supplement vital statistics data by providing information about the circumstances of violent death. Please refer to the Vital Statistics Administration for case counts and rates.

Cases included in this report:

- Single-suicides of Maryland residents injured in Maryland
- Multiple-suicides of Maryland residents injured in Maryland
- Homicide followed by a single-suicide of Maryland residents injured in Maryland
- Single-suicides of out-of-state residents injured in Maryland

Cases excluded from this report:

- Suicide deaths of out-of-state residents that were injured out-of-state and died in Maryland

Table of Contents

Circumstance data is limited to information documented in the law enforcement and/or medical examiner files. Information on mental health and substance abuse history comes solely from these sources and not medical records or other treatment records.

¹Health history data may be incomplete. See note on Table of Contents (page 2).

²2018 data displayed in Figure 23 on next page.

Figure 28: Circumstances: Life Stressors¹, 2018

Figure 29: Circumstances: Life Stressors¹ by Sex, 2018

¹Health history data may be incomplete. See note on Table of Contents (page 2).

n = Number of cases in the defined category

% = Percentage or proportion of cases in the defined category

* = Data suppressed due to n<11

Figure 30: Circumstances: Life Stressors¹ by Age (years), 2018

Figure 31: Circumstances: Life Stressors¹ by Race/Ethnicity, 2018

¹Health history data may be incomplete. See note on Table of Contents (page 2).

²All other race/ethnicity includes: Asian/Pacific Islander, American Indian/Alaska Native, Hispanic, unknown/unspecified, and two or more races.

n = Number of cases in the defined category

% = Percentage or proportion of cases in the defined category

* = Data suppressed due to n<11

Figure 32: Circumstances: Life Stressors¹ by Ever Served in the U.S. Armed Forces, 2018

Figure 33: Circumstances: Life Stressors¹ by Urban-Rural² Classification of County of Residence, 2018

¹Health history data may be incomplete. See note on Table of Contents (page 2).

²**Large metro:** counties in central or fringe metropolitan statistical areas of 1 million or more population; **small or medium metro:** counties in metropolitan statistical areas of populations less than 999,999; **rural:** counties in micropolitan statistical areas and nonmetropolitan counties of less than 49,999 (defined by the 2013 NCHS Urban-Rural Classification Scheme for Counties).

n = Number of cases in the defined category

% = Percentage or proportion of cases in the defined category

* = Data suppressed due to n<11
