The Maryland State Board of Chiropractic Examiners (the "Board") and Daniel Robinson, D.C., license number S01364, ("Respondent"), hereby enter into this Consent Order to resolve the Charges filed by the Board under the following statutory sections of Health Occupations, Md. Code Ann. § 3-313.

Specifically, the Board charged Respondent with violation of the following provisions:

Subject to the hearing provisions of § 3-315 of this subtitle, the Board may deny a license to any applicant, reprimand any licensee, place any licensee on probation, or suspend or revoke a license if the applicant or licensee:

- (8) Is unethical in the conduct of the practice of chiropractic;
- (9) Is professionally incompetent;
- (11) Misrepresents the effectiveness of treatment for financial gain;
- (12) Willfully makes or files a false report in the practice of chiropractic[.]

On August 24, 1999, a second Case Resolution Conference was held. In attendance were Paul Goszkowski, D.C., Board President, Andrea Brisbin, Assistant Attorney General, Board Counsel, Kitty Travagline, Board Executive Director, Richard Bardos and Lisa B. Hall, Assistant Attorneys General, Marc K. Cohen, Esquire and Steven Stern, Esquire, attorneys for Respondent and Respondent.

FINDINGS OF FACT

The Board makes the following findings of fact.

1. At all times relevant to the charges herein, Respondent was licensed to practice chiropractic in the State of Maryland. Respondent currently has a practice at 4140 Crain Highway, Waldorf, Maryland 20603.

2. In or about March or April, 1990, Patient A¹, a twelve year old female child, was taken by her mother to the pediatrician following Patient A's complaints of back pain. Patient A was diagnosed as having scoliosis and the pediatrician recommended that Patient A be seen by an orthopedist. Patient

¹ Patient names are not revealed in charging documents. Respondent will be provided with the Patient names corresponding to this document by contacting the administrative prosecutor and requesting the patient key.

A's spinal curvature due to scoliosis was at that time rated to be approximately 40 degrees.

3. Patient A's mother sought the advice at Respondent's clinic on April 4, 1990.

4. An employee of Respondent initially saw Patient A on April 4, 1990. X-rays were taken of Patient A at that time. Respondent advised the family that intensive treatment in his office could stabilize or improve the spinal curvature and Respondent recommended that Patient A initially receive four (4) chiropractic appointments a week to accomplish this goal.

5. Accordingly, Patient A was seen in Respondent's office for approximately eighty (80) visits during April through December 1990.

6. Patient A primarily received chiropractic treatment from one of Respondent's employees. Respondent continued to provide the family with consultation regarding the care and progress of Patient A's condition.

7. Patient A's chiropractic x-rays demonstrated a 45 degree curvature in December, 1990 using a Cobbs angle. On or about December 27, 1990, Patient A was urgently seen by Ian D. Gordon, M.D. for evaluation of Patient A's spinal curvature. Dr. Gordon

The reviewer shall review the records and provide a written report to the Board of the reviewer's findings. The reviewer shall be paid by Respondent for the record review and report.

E. All costs associated with compliance with the Order shall be borne by Respondent.

F. Respondent shall take an ~~ethics~~ course, pre-approved by the Board, of not less than 20 hours duration.

G. Respondent shall complete conditions A, B, D and F within nine months of the date this Order is signed by the Board.

ORDERED that in the event the Board finds for any reason in good faith that the Respondent has substantially violated any provision of Title 3 of the Health Occupations Article, Maryland Annotated code or the regulations thereunder, or if the Respondent violated any of the foregoing conditions of this Order, the Board, *after notification to the Respondent and an opportunity to be heard, in the case of a violation of this Order, by a Show Cause Hearing only,* may take immediate action or impose any lawful disciplinary sanction it deems appropriate, including but not limited to revocation or

found that Patient's curvature was beyond bracing.

CONCLUSIONS OF LAW

Based on the foregoing, the Board finds that by failing to insure Patient A's condition was carefully monitored and properly documented, while receiving treatment at Respondent's clinic, Respondent acted unprofessionally in violation of HO 3-313(9).

B. Respondent must take a record keeping course of at least 15 hours in duration, to be pre-approved by the Board and notify the Board in writing when he has completed the course.

C. Three months after the board receives notice that Respondent has completed the record keeping course, Respondent shall submit to a random record review by a Board designated reviewer of 20 new patient records to be conducted in the following manner: a Board investigator shall randomly select 20 records for new patients who were treated by Respondent since Respondent completed the course on record keeping. The investigator shall identify the names of the patients and Respondent shall provide ^{originals} ~~copies~~ of the complete record for each such patient to the investigator at the time the names are selected.
