

Statewide Technology Resource Guide for Individuals with Disabilities

Through funding from the CARES Act, this Resource Guide was created to assist both organizations serving people with disabilities and people with disabilities to access internet/data, equipment, and training/tech support.

Accessing Internet/Data

Public Libraries: Most public libraries offer wireless and internet access within the buildings and in public spaces around the building. Short term rental of tablets, laptops and various assistive technology are also available. Contact your local library to see specific terms.
