

What is ImmuNet?

ImmuNet is Maryland's Immunization Information System (IIS), a confidential and secure vaccination database that is HIPAA-compliant.

ImmuNet stores an individual's vaccination history and is a web-based tool for health care practitioners, pharmacists and schools to help keep patients and students vaccinated on-time and avoid under- or over-vaccination.

ImmuNet information is available only to authorized users.

Maryland ImmuNet Law

- Statute: §18-109(b) (Establishment)
- Statute: §18-109(d)(6)(I)3 (Reporting)
- Statute: §18-109(c) (Permissible use)
- COMAR: 10.06.03.04 (Information reported)
- COMAR: 10.06.03.05 (User agreement)
- COMAR: 10.06.03.07 (Permissible use)
- COMAR: 10.06.03.09 (Security)

Revised October 2019

MARYLAND DEPARTMENT OF HEALTH
Center for Immunization

**Keeping Maryland
Healthy: ImmuNet**

**Maryland's
Immunization
Information System**

ImmuNet ensures confidential, fast and secure records access.

For Health Care Practitioners

ImmuNet has benefits for health care practitioners and patients alike, including:

- Quick access to patients' consolidated vaccination history
- Vaccination services improvement, with reduced office wait time
- Prevention of missed or duplicate vaccinations, or vaccinations given out of series
- Reminder/recall feature to inform patients/parents of vaccination due dates
- Ready-to-print official vaccination records for patients
- Ability to determine office vaccination rates for children and adolescents
- Report to ImmuNet automatically through EHR/EMR, saving staff time to report vaccinations*

***As of October 2019, all vaccinations administered in Maryland are required to be reported to ImmuNet.**

Enroll now: health.maryland.gov/ImmuNet

For Parents and Patients

ImmuNet is free, secure and easy to use.

Register with MyIR at myirmobile.com to get your or your child's official ImmuNet records for school, camp, travel, employment or going to a new health care practitioner.

Go to health.maryland.gov/ImmuNet (click on 'For Public') to:

- Opt out of ImmuNet by filling in an online opt-out form
- Request corrections to your ImmuNet information with your healthcare providers or fill in an online record request form

For Schools and Child Care Centers

ImmuNet is the easiest way to manage student records and vaccinations required for attendance. Authorized users can look up child or student vaccination history by filling in an online ImmuNet enrollment form.
