# Work Group Formation and Instructions

## Keisha Peterson

DEPARTMENT OF  
HEALTH AND MENTAL HYGIENE

## *Purpose/Expectations of Work Groups/Assignments*

- ❑ Each attendee was assigned to a work group based on a survey which was completed at the last HCT Leadership meeting which took place on June 24, 2015. Attendees had the option of choosing one of work groups based on their area of interest/expertise.
- ❑ Each workgroup is tasked with generating ideas and suggestions which will inform the strategies of the leadership team and will also be discussed in the end of the year report to Got Transition.

# Group Member Roles

Each group has been assigned a Facilitator and a Note Taker

- The role of the **Facilitator** is to assist the work group with getting acquainted, staying focused and on schedule regarding information sharing and identifying specific strategies related to the topic area of that group as well as coordinating the scheduling of work group meetings.
- The **Note Taker** is responsible for recording the key points and highlights of the work group's discussion, taking special care to seek clarification about anything from the discussion which is unclear. The note taker will be asked to use a specific format for note-taking which records actions/strategies discussed as well as assignments, person(s) responsible and due dates.

## *Group Member Roles*

Subsequent to the next meeting of the work group the note taker should compile and prepare the notes from the meeting for distribution to workgroup members as well as the OGPHSCN Health Care Transition Coordinator

DEPARTMENT OF  
HEALTH AND MENTAL HYGIENE
