<sup>(1)</sup> Since we anticipate that providers, initially, will not incur a cost for the product, CMS will update the payment allowance at a later date. Providers should not bill for the product if they received it for free.

<sup>(2)</sup> These rates will also be geographically adjusted for many providers. For providers and suppliers with payments that are geographically adjusted by the methodology used by the Medicare Physician Fee Schedule (MPFS), files with the geographically adjusted payment rates for COVID-19 vaccine administration are included in the "Additional Resources" section below. Certain settings utilize other payment methodologies, such as payment based on reasonable costs.
